### Hello Club Members!

I attended the Southern Colorado Council of Car Clubs meeting and had an interesting conversation with a member of the Old Car Council of Colorado. I had no idea that this club existed, much less what they do. They began in 1965 when only five organized clubs at that time decided that they should have a way to coordinate club events. (This is the same idea operating ideas as the Southern Colorado Council of Car Clubs). As they developed through the years, they have become sort of a "legislative watchdog" for auto hobbyists. Taken from their website: [www.milehicobraclub.com](http://www.milehicobraclub.com) (click on Old Car Council icon)

"The primary purpose of the OCCC is to support sound legislative and regulatory actions and to defend vigorously the rights and privileges of the old car and special interest auto hobbies to use the public highways, byways, and streets in Colorado. Other purposes are to protect sound licensing provisions in

ocal ordinances and state laws; to preserve the special interest car (tomorrow's antique and classic) from premature destruction and ill advised regulatory moves of Home Rule cities in Colorado; to publicize our hobby; to bring favorable public reaction to bear on the hobby; to negotiate and promote needful reforms and consolidation of automotive insurance protection and coverage; and to make legislative authorities and the general public aware of the existence of the hobby and its historical value and to promote its preservation."

The OCCC retains a lobbyist (Leo Boyle) and has a Legislative Committee, which monitors legislation. There are seven bills of interest currently in legislation. They have to do with authorization of kit motor vehicles (HB1176), builders certificate of title (HB1294), special license plates collectors (HB1020), scrap dismantle automobile (HB1007), choice in insurance repair (HB1006), auto insurance disclosure requirements (HB 10300) and mandatory offering

of medical insurance coverage (HB1036, SB19). Because the results of this legislation affect us all, I am thinking that we should have an OCCC member as a guest speaker at one of our club meetings. We can discuss the current status of the bills if you are interested.

Politics aren't really "my thing" but as a special interest mustang hobbyist myself, this concerns even me.

See you soon,

Jamie

### MUSTANG ANNIVERSARY CRUISE

As always, this was a huge success! There were at least 26 Mustangs that participated which included members from the Southern Colorado Mustang Club. The weather was a bit cool, but for those without air conditioning it turned out

ok. Normally I'd list the par-

ticipating members by name, but thankfully there are too many to list individually in this small space. So, Thanks to all who participated! Talk it up at the next meeting. A special thank you to Terry Myers for planning this wonderful scenic drive. We were all able to stay together and enjoy 1 1/2 hours of cruising time. It looked like everyone ate well and we'll do this again in the form of a garage tour soon!

**YOU MIGHT BE A RACER IF ...**

- *You think the primary purpose of wings is to PREVENT flight.*
- *You take your helmet along when you go to buy new eyeglasses or check out cars.*
- *You are happiest when your street car's tires are worn to racing depth and the wear bars are showing.*
- *When something falls off of your car, you wonder how much weight you just saved.*
- *Your email address refers to your race car rather than to you.*
- *You've paid \$4.00 a gallon for gas without complaining.*
- *You bought a race car before buying a house.*
- *You bought a race car before buying furniture for the new house.*
- *You're looking for a tow vehicle and still haven't bought furniture!*
